

PRICELIST QUOTING

The Pricelist Quoting add-on module enables you to quote price list items with optional customer-specific price lists, without regard to time and material based pricing, offers optional links to inventory items and activity codes for scheduling, and enables you to convert those quotes to jobs. With this fully-integrated module, customer service representatives and even your Internet customers can easily select options for quick copy or quick turn jobs and immediately receive accurate pricing. This module also creates complete job tickets for production and enables easy attachment of source material for inclusion in the job workflow.

The Quote Detail Screen

The Add Quote Screen

This module offers you these features and benefits:

- Provides a user-friendly interface that facilitates quick, accurate quoting.
- Offers a configurable interface that supports both multiple and single quantity, multi-part quotes.
- Supports multiple price lists.
- Provides less experienced estimators the ability to produce fine-tuned, detailed quotes as well as quick turn quotes with ease.
- Enables you to duplicate existing quotes.
- Supports multiple quote letter templates and quote letter types.
- Enables you to automatically convert an accepted quote to a job.
